

Quick Outline

Name: _____

Date: _____

Topic: Math state test

T.S. We thought that the math state test was challenging.

Supporting Details:

1. The math state test was ^{hard} hard. Some of the problems were difficult.
2. Some of the other math problems were kind of easy ^{because} because we have already learned them.
3. We had to show our work because that was mostly getting graded.
4. We had to use tools like rulers and protractors.

C.S. We didn't think the math state test was too hard, but it was pretty rough.
