Taking Care of Your Teeth

Your teeth are very important to your health. Without strong teeth you cannot eat the foods that your body needs. Food can get stuck between your teeth. Sugar coats your teeth. The food and sugar can put holes called cavities in your teeth. You should brush your teeth every morning and every night. Brushing well gets food and sugar off your teeth. Two times a year you should visit your dentist, a doctor who takes care of teeth. The dentist will clean your teeth and fill any cavities you might have.

- ① What is the main idea of this story? It's about taking care of your teeth
- ✓ ② Why do we need strong healthy teeth? We need strong and healthy teeth to stay healthy.
- ③ What does the word cavity mean? to put holes in your teeth.
- ④ What can you do to keep your teeth healthy? By brushing them every morning and every night.
- ⑤ How do dentists help our teeth? By making sure you don't have cavities.
